

Work of Art

Preferred by Designers

- Beautiful range of colours
- Available in the most popular specie, including American White Oak.

Enduring Quality

- Higher density than other engineered hardwood flooring.
- Next Generation Technology makes it tough, yet visually appealing.

The Look of Luxury

- Premium Grade wood for a high-end and clean aesthetic.
- Luxuriously longer and wider boards 9-1/16" x 86-5/8" R.L.
- 95% full length boards.

Beautifies Any Space

- It fits any room and its lightly brushed matte finish hides wear and tear.
- Durable with scratch and stain resistant features.

Peace of Mind

Lifetime Warranty Protection

- Lifetime residential and 10-year commercial warranty.
- 3 Season homes and radiant-heat warranty. (Conditions apply)

Eco-Friendly & Family-Safe

- Sustainably-sourced, reclaimed wood.
- Zero formaldehyde makes it the safest choice for children and pets.

Structural Stability for Heated Floors

- Installation over electric and hydronic radiant-heat systems.
- Structurally stable under extreme temperature and moisture fluctuations.

360° Water Protection

- 72-hour spill protection.
- Easiest hardwood floor to clean and maintain.

Plank Size: 15mm x 230mm x 2200mm R.L.
95% full length boards

GEM1216
White Oak - Warhol

Next Generation Technology

It fuses solid hardwood components to create a remarkably durable Creation. In addition to having 360° water protection, it is impact and scratch resistant, and won't delaminate. Creation hardwood performs under extreme conditions, including high traffic, and temperature extremes. It is electric and hydronic radiant-heat compatible too. Perhaps best of all, it's backed by one of the most comprehensive warranties in the business.
