GEM1216
White Oak - Warhol

Next Generation Technology

It fuses solid hardwood components to create a remarkably durable Creation. In addition to having 360° water protection, it is impact and scratch resistant, and won't delaminate. Creation hardwood performs under extreme conditions, including high traffic, and temperature extremes. It is electric and hydronic radiant-heat compatible too. Perhaps best of all, it's backed by one of the most comprehensive warranties in the business.

GEM1218
White Oak - Hockney

Work of Art

Preferred by Designers

- Beautiful range of colours
- Available in the most popular specie, American White Oak.

The Look of Luxury

- Premium Grade wood for a high-end and clean aesthetic.
- Luxuriously longer and wider boards 9-1/16" x 86-5/8" R.L.
- 95% full length boards.

Enduring Quality

- Gem Guard with lifetime built-in permanent wear, stain and water resistance.
- Next Generation Technology with unparalleled wear resistance.

Beautifies Any Space

- It fits any room and its lightly brushed matte finish hides wear and tear.
- Superior scratch, stain and dent resistant features.

Peace of Mind

Lifetime Warranty Protection
